ABOUT ME

I'm a full-stack developer with a passion for creating innovative solutions that solve complex problems. With a Master's degree in Computer Application, I have honed my skills in coding, debugging, and testing. I take pride in my ability to work collaboratively in a team environment while also being able to take initiative and work independently.

- [Demo](#)

News App

- Tech Stack: React Js, CSS
- Features: Data fetch from News Api
- [Demo](#)

EXPERIENCE

IJRDO journal (March 2022 –present)

Backend Developer

My Day to Day work includes:

- Design and implementation of RESTful APIs to support the front-end applications.
- Writing server-side code in Node.js and Lambda to create a robust and scalable back-end architecture Using AWS.
- Participating in code reviews to improve the quality and maintainability of the codebase.
- Collaborating with front-end developers to integrate their work with the APIs you build.

HOBBIES

- Active cryptocurrency trading and market analysis.
- Staying current with blockchain technology advancements and principles.
- Building and managing a diverse cryptocurrency portfolio.

“I hereby declare that the details and information given above are complete and true to the best of my knowledge.”
